## Community Events Calendar At C. of C.

A calendar of community events is maintained at the Tri-Cities Chamber of Commerce office for the convenience of Quad-Cityans. It was pointed out today by Harlan Dobry, secretary.

Purpose of the calendar is to have information available on all meetings and events going on in the Quad-Cities. Organizations are invited to submit data to the office.

"It's handy, too," Dobry said, "so an organization planning a special event will know if the date and time conflict with any other special observances."

## Charged With Speeding

David F. Rickett, 21, of 1608 Courtenay Blvd., was arrested at 26th street and Madison avenue early Saturday morning by Granite City police on a charge of speeding. He assisted his driver's license as bond.

WITH THE UNITED-FUND DRIVE a little over \$33,000 short of its \$4 million goal, the fund-raising campaign has been extended to the middle of this week, when a final tally of giving is expected to put it over the top. Campaign General Chairman James L. Hamilton Jr. (left) looks over the reports of last Wednesday which showed pledges and subgrants of \$251,725. The interested "kibitzer" is Chester A. "Bud" MacMillan, YMCA general secretary, whose association is a major beneficiary of the drive.

## 'V' Day For UF Foreseen; Canvassers Redouble Efforts

The "Big Push" is on — the all-out effort in the Tri-Cities UF fund-raising campaign — and it will culminate, it is prophesied on many sides, in a "Victory" report luncheon Wednesday noon at the YMCA.

At that time, "finis" will be written to the drive, officially inaugurated on Oct. 13. The volunteer solicitors and subscription canvassers are working under a weeks time extension given last Wednesday when the final addition of team captain's reports showed the total to be \$33,737 under the goal of \$33,461.

## 88% Of Goal Attained

The grand total as of last Wednesday was \$251,724, representing 88% of the goal of giving. So, with 12% yet to be raised, Campaign General Chairman James L. Hamilton Jr. called

the extra time to implement a variable fine tooth-combing so as to provide all with the opportunity to "give their fair share" to make possible the productive work of the 18 benefiting health, welfare and character building services and agencies.

"With \$33,737 left to go," John D. Sosenberger, UF executive secretary, surmised today, "it is a risky little to say that the goal will be met — and very likely exceeded — with the tally made next Wednesday noon."

The drive, as compared with those of some neighboring cities and communities, has gone ahead with jet-propulsion speed.

At the Kick-Off dinner on Oct. 13, "early bird" campaigners reported responses amounting to

\$82,392, or 28.7% of the goal. Next report session showed the gauge up to 51.4% or \$146,977.

Subscriptions and pledges brought in at the third accounting luncheon hosted the figure to \$225,518, or within a whisker of 80%.

At that time, the chairman cautioned that there would be some "roughing" since the king-size contributions were already chipped up. This proved to be true.

Last Wednesday Auditor Melvin McKay, who, quick with figures and the "single, regular" total of \$251,724 to be 12% short of the goal.

Edwin Reiland, president of the Tri-City Trades and Labor Council; Paul H. Lichtenberger, president of the Tri-City Chamber of Commerce and State Rep. Lloyd "Curly" Harris.

Veteran Legislator Harris, the father of the amendment specifically allocating \$25 million to the proposed bond issue for use at the area city center.

"Keep College Doors Open"

And in his address, "Keep the College Doors Open," Mr. Morris referred to the absence of friction or inter-animosity between the Quad Cities and Edwardsville.

This unity, he said, is a symbol of the future and the Carbondale speaker's speech in broad lines a real picture of the future of the Quad Cities.

At full stature, Mr. Edwardsville campus will have an enrollment of 18,000. Major cultural, economic, financial, social and educational benefits will be realized by the Quad-Cities because SIU related, is planned to integrate in and develop leadership for the communities the institution serves.

"The center will bring to the community a galaxy of 'specialists' who will aid in meeting principal problems," he said. "It feels it owes something to the communities, the adults and the society sustaining it," he emphasized.

"As a part of a burgeoning suburban development, we want to be in breathing and functioning 'relationship' to it, not a school set up, apart, for any community class."

President Morris said the new Edwardsville center designed to reflect the needs of easy access alike to students, faculty and the body of citizens it is purposed to serve. Under present plans, it will accommodate 300 students, and the speaker predicted a speedy increase to 18,000.

In the course of his discussion of the critical need for maintaining a policy of high education for all without prejudice, he said, the college president said:

**World Leadership At Stake**  
"Our chance to hold our leadership in the world today is not in numbers. Our strength is our belief that each person, according to his skills and talents, be afforded opportunity to expand them to the maximum of his capacity."

"If there can be provided, as I believe there will be, opportunity for all to go on to the maximum of their potential, this will be the greatest contribution our university can make to the total sum of society."

"We aim to build a university into a living, working organism of the state and community, and feel that where the people are — and this is the state's second largest population center — there, too, is a nucleus of the university."

Reiterating the new view, for rapid capital improvement at the state-supported colleges, Dr. Morris then left his seat up to the jurors—the Nov. 1 voters.

"If you want your sons and daughters and the high school graduates of your community to enjoy the kind of educational opportunities in the future available in the past, support the bonding proposal."

"If you don't approve of limitations on enrollment, due to want of facilities, you should act."

"It is your responsibility, it is your decision. It is a decision for the institution of higher learning to make; but what we can do for the young people of your area must be determined by the people."

Dr. Morris referred to statistics to show the necessity for what he described as a "massive attack" on the bond issue, shortages on state campuses.

In 1959, 135,000 freshmen entered Illinois colleges by 1970, he surmised, this will swell to 300,000.

### Girl Scout Fall Cookie Sale Campaign Underway

Approximately 750 intermediate and senior Girl Scouts gathered at the Washington Theater at 9:30 a.m. Saturday to kick off the Tri-City Girl Scout Council's semi-annual cookie sale.

The girls, representing some 70 troops from the immediate area, received final sale instructions from the cookie chairman, Mrs. Esther Zimmer, viewed a movie and were given cookie order books.

Immediately following the program the Girl Scouts began a door-to-door sales campaign in their neighborhoods. About 900 will continue the cookie campaign through Thursday.

Funds raised through the project help pay Girl Scout registration fees and a portion of the profits this fall will become a part of the Camp Lakota lodge improvement fund.

An original cookie campaign song composed by members of Intermediate Girl Scout Troop 159 was presented at the kickoff, while members of senior troops 19 and 52, assisted by Mrs. Zimmer, led the Girl Scouts in songs Saturday at the theater.

The Girl Scouts are making available three types of cookies again this fall, each box priced at 40 cents. They include chocolate units, sandwich cookies and savanahs.

Participating Girl Scouts will continue to take orders through Thursday, but customers do not pay for their purchases until delivery, which is expected on Nov. 14 or 15.

**SURVEYING** the situation downfield, Warrior halfback John Groboski (20) is pursued by nearly half of Edwardsville's defensive football platoon as he breaks into the

clear momentarily during Thursday night's homecoming game here. Trailing Groboski are Tiger players Mike Wenz (60), Gary Korte (55) and Larry Loyders (61).

**RED AND BLACK-CLAD** Granite City high school marching band goes through its paces during well-rehearsed halftime show presented Thursday night before some 2000

students and alumni at the Warrior-Tiger football game on the GCHS football field. The 20-minute presentation was supervised by band-director Louis Meek.

# Tigers Wreck GCHS Homecoming Victory Hopes, 29-7

## Penelton Punctures Warrior Defense For Three TD's, Passes For Another

Edwardsville's steamroller, with Fullback Tony Penelton at the controls, made a shambles of hopes that the Granite City high school homecoming weekend might begin on a happy note Thursday night by flattening the football Warriors 29-7.

The big Bengal back added 20 points to his already impressive total for the season while widening his lead in the area's individual scoring department, a feat of considerable proportions since Benny Iselhardt's 50-50 crew has won only three times in seven starts this season.

The defeat left the Warriors, who threatened to make a tight game out of the contest for one quarter, hopelessly mired in the Southwestern conference cellar with an 0-5 record and only one SWC game, with Belleville, remaining. Edwardsville stands 2-3 on the season in the league.

Directly and indirectly, Penelton accounted for all but three of the Tigers' 29 points. He ran for three touchdowns and one extra point, heaved a 38-yard touchdown pass, and caught one pass for another point after touchdown. The line individual performance boosted his scoring total to 108 points in seven games.

**Groboski Standout**  
A standout on offense and defense for the Warriors was Halfback John Groboski, who scored the only GC touchdown in the

first quarter on a one-yard plunge after carrying the ball there on a 44-yard pass-and-run play.

He also snagged two other passes for long gains and played alert defense from his line-backer position.

Outside of the all-around play of Groboski, the hard running of Fullback Bob Berry and the sometimes effective passing of Quarterback Larry Nollen.

**Early Fumble Costly**  
A costly fumble on the opening kickoff led to an early Edwardsville score, with the Bengals recovering on the Granite City 40 yard line and driving to the goal in eight plays.

Penelton picked up 36 of those yards himself, carrying six times and going over from the one

## GAME SIGHTS

The second period of Thursday's homecoming football game lasted about 20 minutes instead of the regulation 15 officials discovered at halftime. The electric scoreboard, which controls malfunctioned during the quarter, and time was kept officially on the field during the second half.

The GCHS marching band, directed by Louis Meek, presented a halftime show appropriate to the homecoming spirit by tracing the lives of two mythical but typical slugs.

From infancy through high school, college, marriage and life to high school again — as a homecoming visitor.

Edwardsville Fullback Tony Penelton, the leading runner football scorer in the district, now has 108 points to his credit this season in seven games. The Edwardsville squad, which has scored just 143, Penelton, a 190-pound senior, has yet to be held scoreless in a contest this year.

**Andy High To Speak Here**  
Andy High, chief of staff of the Los Angeles Dodgers and a former St. Louis Cardinals baseball player, will be guest speaker at a father-and-son banquet at 6:30 p.m. Wednesday at the First Presbyterian church in Granite City. The event is being sponsored by the Men's Council, and President Dan Clendenin will preside. About 125 are expected to attend.

The starting lineup for Granite City vs. Edwardsville:

Granite City	Pos.	Edwardsville
Schuman	LB	Schaake
Vorhees	LB	Turner
Pinfield	LB	Betts

# Madison Roms To 35-9 Victory Over Highland

## Petty, Young, Griggs, Walker Each Tally In Trojans' Conference Finale

Madison used every method of scoring save one — the field goal — in routing Highland 35-9 at the Trojan field Friday night in a Midwestern conference football game.

It was the MWC wrap-up for both clubs, and the four remaining Midwest teams also closed out the conference season Friday. Roxana edged Cahokia 6-0 and Dupu eked out a 7-6 win over surprising Berthold. The Roxana Shells and Dupu Tigers shore the conference championship with 4-1 records.

Except for a disastrous 22-second at the close of the first half Friday in Madison, the Trojans would have walked away with a shutout victory.

Madison led 13-0 at the time, but Highland picked up two easy points when Quarterback Mike Gravige found Walker on a 7-6 yard pass to get off a pass.

The ensuing kickoff from the Madison 20 was returned by the Bulldogs all the way to the hosts' 33-yard line by Fullback Darrell Nungesser, who was injured as he was tackled.

On the first play from scrimmage, after a long delay while waiting for an ambulance to transport Nungesser to the hospital for X-rays, Bulldog Quarterback Larry Sively found Paul Wilkins all alone near the left sidelines and the glue-dripped end, who caught three passes good for 101 yards, scampered into the end zone.

Jerry Daudeman, Nungesser's replacement, plunged for the extra point, and Highland had good reason to smell an upset as the squad led the field trailing by only four points, 9-13.

**Effective Ground Game**  
Madison, displaying its most effective ground game of the warning session, had things pretty much its own way for the remainder of the evening, although forced to stop Highland twice inside the Trojan 10-yard stripe in the first half.

Fullback Ed Young recorded the first score of the game with 24 seconds left in the first quarter when he hurtled through the left side of the Highland defense and sped 44 yards for a TD.

It was all Young in the first quarter. The hard-driving senior picked up 93 yards in six carries in the first 12 minutes of play. The Trojans had 203 on the ground during the game.

Gravige passed down the middle to End Ed Walker for the extra point and the quarter ended with Madison on top 7-0.

**Kitchen Blocks Point**  
Kitchen burst through from his linebacker position to block Sively's punt and fell on the ball in the Highland end zone with 2:25 left to boost Madison's advantage to 22-13.

Joe Garagiola, recognized as baseball's top toastmaster along the banquet circuit, will "pinch hit" for Announcer Jack Buck as guest speaker at tomorrow night's Granite City park district sports award banquet.

A former Major League baseball player with the St. Louis Cardinals and other National League clubs, Garagiola is a native of "the hill" district in St. Louis and is currently doing commentary for a televised wrestling program presented weekly at the Chase Hotel.

He is also heard regularly during the baseball season as co-announcer of the "Cardinal Baseball Game" with Harry Caray, and currently has a best-selling book of humorous anecdotes recalled from his career as a major league catcher.

The sports banquet is expected to draw an audience of about 325 persons, and has been sold out for about a week.

Miss Margaret Ann Thomas,  
And Everett L. Ury Jr. Wed

First United Presbyterian Church, 22nd street and Delmar avenue, was the scene of the late afternoon wedding Saturday of Miss Margaret Ann Thomas, a daughter of Mr. and Mrs. Harold V. Thomas, 2820 Grand avenue, and Everett L. Ury Jr., a son of Everett Ury Sr. of Anna, Ill., and Mrs. David McMane of Springfield.

Rev. David B. Maxton heard the vows of the couple at 4 o'clock in a setting of white chrysanthemums, poinsettias and ferns. Burning candles in candelabra lighted the sanctuary and a program of wedding music was furnished by Kenneth McClatchey, organist.

The guests, limited to the families, were entertained by Mr. and Mrs. Thomas at a reception in the banquet room of Miss Halling's restaurant in St. Louis, following the church service.

Given in marriage by her father, the bride wore a street-length dress of white dullest satin. It was designed with a molded bodice, a high rise waist, a scoop neck and elbow length sleeves. Deep pleats formed the bell shaped skirt and a veil of silk illusion was caught to the bride's hair.

She carried a white orchid and lilies of the valley on a Bible. The only ornament worn was a strand of pearls, the bridegroom's gift.

Attendants were Miss Norma Nolan of Alton, Miss Robert Knox of Alton, N.J., Mrs. H. Brown, Nancy, Dan and David Brown of Holyworth, Ill., and Everett Ury Jr., son of the bride, and Carter Partidge of Anna, a classmate of the bridegroom.

Miss Nolan was in a loden green velvet dress with a wide scoop neck, and three-quarter length sleeves. The skirt had full unpressed pleats and matching

bands of satin around the midriff. A velvet bow formed her headpiece and matching green gloves completed the costume. She held a bouquet of green papi mums and varicolored croton leaves.

Mrs. Thomas, the bride's mother, wore a deep beige chiton dress with velvet trim and champagne accessories complemented with a corsage of green cymidium orchids.

James Thomas, a cousin of the bride, and O. H. Williams served as ushers at the wedding, and the candles were lighted by Miss Dana Earmhardt and Miss Jo Ann Faskick.

The reception table held an arrangement of white pom poms and the large tiered wedding cake. Betty Lee Thomas, a cousin of the bride, presided over the guest book.

The newly-wedded pair left after the reception for a short trip. When they return they will make their home in Anna where the bridegroom is associated with the Davis Construction Co. The former Miss Thomas graduated from the local schools and last August completed a nurses training course at Alton Memorial Hospital where she has since been employed. Mr. Ury attended Southern Illinois University in Carbondale.

## \$29,800,000 Asked By SIU For Area Collegiate Center

A capital improvements legislative appropriation of \$80,100,000—including \$29,800,000 for the developing southwestern campus between the Quad-Cities and Edwardsville—has been requested by Southern Illinois University.

Meeting last week, SIU's board of trustees approved asking budgets of \$29,800,000 for the Edwardsville center and \$50,300,000 for the Carbondale campus.

Now in the initial stages of development, the Madison county center is scheduled for completion by 1963.

Although the board in its action did not contemplate that all the requests would be met immediately, even with approval of the proposed Universities Bond issue, they agreed that the board is obligated to "let the people know what we need."

CAMPUS SITE PLAN - FINAL STAGE

## Facts About The Universities Bond Issue

(This is the last in a series of six articles prepared by the Southern Illinois University staff on architectural and engineering master planning for SIU's Southwest campus between the Quad-Cities and Edwardsville.)

Southern Illinois University's new campus near Edwardsville will have to accommodate 18,000 or more students by 1970, according to population patterns in Southwestern Illinois' mushrooming industrial area.

Enrollment at the SIU facilities of the campus development, tentatively scheduled for completion in 1963, can begin early next year if Illinois voters approve the State Universities Bond Issue on Nov. 8.

Work on the initial stage of the campus development, tentatively scheduled for completion in 1963, can begin early next year if Illinois voters approve the State Universities Bond Issue on Nov. 8.

He added that tuition, room and board, required uniform and textbooks as well as medical and dental care are furnished by the U. S. government.

Candidates must be single men between 17 and 21, a high school graduate or in his senior year. Selection is on a competitive basis.

## Labor Council To Again Discuss Teacher Letter

An exchange of letters with the Granite City school board will be discussed at Wednesday night's monthly meeting of the Tri-City Trades and Labor Council, it was learned Saturday from Edwin Reiske, president. He said it appears that the board does not wish to meet with a council committee on a board letter that to Guy M. Lahr Jr., a teacher.

Reiske said that Lahr had presented the letter at the Oct. 6 council meeting.

Commenting that he does not believe the labor council will be satisfied with the reply, Reiske told the Press-Record that a meeting with the board is still sought. He noted that Lahr is president of the teachers' local and that the board is still on strike on the final day of school last spring.

The letter to Lahr in September reportedly advised him that he was under surveillance due to his actions as a school employee which allegedly held the board up to public ridicule and lowered teacher morale.

Written as a personal letter after verbal advice proved ineffective, the message was not received publicly by the board in order to protect the employee, school officials said. They declined again on Friday to discuss the contents of the letter. Lahr also declined, and Reiske told the Press-Record that a meeting probably will decide Wednesday whether to release it.

## Older Boys Rob Younger Youths Of 'Treat Bags'

Two older boys, stepping from a late model auto, robbed two 14-year-old "trick-or-treaters" about 8:45 last night in the 2100 block of Lindell avenue, taking "treat bags" containing candy and a few nickels.

Joseph Mangiaracina, 2132 Aron avenue, and Paul, 2040 of Manly avenue, were walking along when the auto stopped and one of the older boys yelled "trick or treat," jumped out of the car and grabbed the bags of the two younger boys.

The two smaller boys, both dressed as "beatniks," returned home for more bags and resumed their rounds.

## Pro-County Health Dept. Group Gives More Answers

The Quad-Cities Committee for the Madison County Health Department has released additional excerpts from the voter guide prepared under direction of the Illinois Statewide Public Health Organization.

Presented in question and answer format, the state organization has compiled a booklet titled "Why You Should Vote for Madison County Health Department."

Dr. Felicia D. Koch, Granite City physician, is chairman of the Quad-Cities group advocating ratification of the Nov. 8 referendum for the establishment of a county health clinic.

There is additional copy and material from the publication.

Q. What is a county health department?

A. It is the branch of your county government devoted to protecting and improving the health of every person in the county. It provides a "home rule" health service on a full-time basis through trained public health workers.

Q. Do we have the legal right to organize such a health department?

A. Yes. Since the County Health Department Law was passed in 1943, it has been possible for every county in the state to establish a health department and to levy a tax for its support.

Q. Who runs the county health department?

A. A board of health consisting of eight persons serving without pay, appointed by the chairman of the board of supervisors with the approval of the entire board. According to law, two members of the board of health must be physicians and one member must be a dentist. In multiple-county health departments, four members from each county make up the board of health.

Q. Can a supervisor be a member of the board of health?

A. Yes.

Q. Will the county health department become a "political football"?

A. No. The law is so framed that this is highly improbable. Experience in Illinois to date and in other states shows that health is not subject to political interference.

Q. Will the county health department take over the care of the indigent sick people?

A. No. The board of supervisors will still be responsible for providing medical care for the indigent. Good public health service, however, should reduce the number of sickness and disability among the indigent.

Q. Will a county health department interfere in any way with the practice of the private physicians in the county?

A. None whatsoever. The health officer is forbidden by law to engage in private practice. He must give full time to the county health department. The same is true of the public health nurses and the other staff personnel. The health officer will, on request give free consultation service to any physician in the county on matters pertaining to communicable diseases; but he does not compete with him for patients. On the contrary, all members of a county health department preach the gospel of "see your doctor, see your dentist," and thus promote the private practice of medicine.

Q. Is the county health department plan the same as "state" or "socialized" medicine?

A. Positively not. Public health in general is concerned with the prevention of disease by means of education, sanitation, immunization, early diagnosis, maternal and infant care, school health and other preventive measures. Public health seeks to prevent disease; it does not attempt to diagnose or treat afflicted individuals.

Q. What is the attitude of the American Medical Association toward the county health department plan?

A. The American Medical Association advocates complete coverage of the United States

with county and city public health departments.

Q. What is the attitude of the Madison County Board of Health regarding the county health department plan?

A. The Council of the Illinois State Medical Society has gone on record as endorsing the county health department plan in Illinois.

Q. If a city has a health department, what becomes of it?

A. If a county health department is established?

A. If a city health department is staffed by fulltime, qualified employees, it may remain independent of the county health department. County taxes collected on property inside the city limits are refunded for the support of the city health department.

Q. If a city has only a part-time, unqualified health department but wishes to keep it, can it do so?

A. Yes, but the county health department will have precedence over city health rules and regulations in case of conflict. The plan will usually prove unsatisfactory because the city would have to pay for every county health worker in addition, support its part-time health department.

Q. What qualifications must a health officer have?

A. The health officer must be a citizen of the United States, must be a graduate of a class A medical school, must have served one year of internship in a recognized hospital, and must be licensed to practice medicine in Illinois. In addition, he must have a college degree in postgraduate study in public health medicine and two years of full-time experience.

Q. How much money will Madison county need to operate a health department?

A. The amount of money needed can be estimated by multiplying the population by \$120. Thus, if a county with a population of 75,000, the estimated budget would be about \$9,000.

Q. Must all this money come from local taxes?

A. No. A county with a population of 75,000 is allowed to receive contributions of real and personal property. The amount of money received, receive some financial help from the Illinois Department of Public Health, upon request, as much as \$1 per family \$3 raised by local taxes.

Electric Bills In GC Slightly Above Average

Residential users of electricity in Granite City paid \$7.96 for 250 kilowatt hours of electricity last month, according to an announcement by Illinois Power Co.

In a community with a population of about the same population, Elmhurst, Ill., paid \$8.02; Ottumwa, Ia., paid \$8.70; and Indianapolis, Mo., paid \$7.65.

These figures are from a recent report by the Federal Power Commission listing electric rates for U. S. cities with over 250 population.

The FPC report shows that the national trend for average residential electric bills has been slightly upward since 1952. During the 1952-1960 period, the increase has amounted to about 6.5% for the average customer who uses approximately 250 kilowatt hours a month.

The national monthly average for residential customers using 250 kilowatt hours was \$7.44 at the first of the year.

Many factors, the FPC report said, "operate to produce variations in unit costs and differences in the level of bills."

The figure for the national average includes both rural and urban areas and municipal power projects, which are income tax free. It is estimated that investment-owned utility companies pay income tax amounting to about 27% of their revenue.

Rising fuel, material and labor costs are other reasons given for the upward trend.

Equip New Junior High

Basketball and wrestling practice uniforms and equipment, athletic letters and insignia and other articles amounting to \$300 were purchased for Granite City high school and the three junior high schools. Included was a set of winter sports equipment for the new West 25th street junior high. Totals were \$2165 from Granite's Bookstore, \$866 from Economy Sporting Goods, \$173 from Giesler-Jorgensen and \$123 from Bailey and Hines. New bids are to be sought on a wrestling mat for wrestling and mat cover for Coedgale.

About 100 tons of "grade eight" limestone, delivered by Wydoski, is to be purchased from Paul Seebold Concrete Co. on its low bid of \$24,000. The limestone is to be used in designated areas, with no more than one stop in unloading each truck, and some will be used for the new building for the GCIS shop addition still under construction.

Grading work will be installed on some windows at the Washington, McKinley, Stallings and Nameoki grade schools to protect windows from breakage due to playground games. The work was awarded to the firm of Lindse-Saylor for \$745 and will be painted by the school maintenance staff.

Library Book Bids

The board approved a recommendation from the library staff and administrators that trade books, textbooks and other library volumes be purchased from H. R. Huntington Co. during the month of October. The purchase of 100 books was authorized in a comparison with four other bids.

Acting as the suggestion of Board member Herbert Bischoff and Secretary Herb Kaeseberg, both of whom are farmers, the board accepted a low bid of \$308 on seven tons of fertilizer from the American Agricultural Chemical Co. but decided to use it on a wider area of the West Junior high school grounds than originally considered. It was agreed to use fertilizer wherever grass is to be sown, but to limit the number of pounds per acre so that the concentration does not become too harsh.

An electric motor for the Stallings school, which could also be used at Logan, was bought from Acme Electric Co. at \$80.

The board ordered metal from J. T. Ryerson at a cost of \$32.9 for use in the GCIS welding shop and purchased a liquid paint mixture from Cook's Paint Co. at \$82 for a 35-gallon drum. It will be used in preparing aluminum paint for school fences.

Revised Electric Contract

The board approved a change order adding \$756 to the \$51,330 contract of Rite Electric Co. on GCIS additions. Revisions in wider outlets and other electric connections were listed.

Attendance by Louis E. Meek at the board meeting and percussion music clinic in Champaign Friday and Saturday was authorized.

Four "hours-a-day" cafeteria workers hired were Mrs. Colleen June Ellis, 721 Twenty-sixth place, and Mrs. Alma Brown, 2148 Benton street, for Coedgale Junior High; Mrs. Margie Hall, 2654 East 28th street, for Central Junior High; and Mrs. Leyla Odor, 2205 Lee avenue, for Logan grade school.

New Low Protects Cropland, Allotment Privileges

Under new legislation, any farmer who diverts cropland to permanent cover under a conservation reserve contract may be protected in his cropland and acreage allotment history for an additional period equal to the period the land was under contract.

This was pointed up this week by Edwin C. Rothmeyer, director of the Madison County Agricultural Stabilization and Conservation Committee.

He explained that previously these acreages have been protected only for the life of the conservation reserve contract. Doubling of this period is provided under a new law passed at the last session of congress and signed by the president in September.

Steelworkers Council Endorses Bond Issues

The United Steelworkers of America Officers' Council has endorsed the bond issue and the Public Welfare Building Bond Issue, to be voted on throughout the state Nov. 8, according to an announcement today by Ralph McBride, sub-district director.

In each case the reason for the endorsement was recognition of the urgent need for action if any solution is to be found to the problems of adequate higher education facilities in southern Illinois and adequate building facilities to deal with health and welfare problems throughout the entire state.

United Steelworkers of America Officers' Council is composed of the Local Union Officers serving 11,000 members of the Steelworkers Union, primarily in Madison and St. Clair counties, and is urged upon members to give serious thought to the need for passage of these two important bond issues.

This is the man who may have saved your life

... or the life of someone dear to you!

CHARLES F. CARPENTIER SECRETARY OF STATE

In 1953, your Secretary of State, Charles F. Carpenter, successfully fought for the passage of a "New Illinois Drivers' License Law" hailed by traffic experts as one of the best in the nation.

Since that time Secretary Carpenter has been foremost in the fight for highway safety. Evidence of his aggressive leadership and intelligent administration is shown by the fact that he has revoked, suspended or cancelled the driving privileges of more than 140,000 drunken, reckless or negligent drivers!

One of them might have killed you... or someone dear to you!

During the time that Charles F. Carpenter has been in office, almost 1,000,000 more vehicles and

drivers have crowded onto Illinois highways—but the death rate on our highways has been decreased each year. If the ratio of deaths in 1952 had continued during the past seven years it has been estimated that more than 3,400 additional persons would have been killed.

Because of Charles F. Carpenter, your Secretary of State, and his strict, honest, forceful administration of the Drivers License Law, this did not happen.

When you vote for Secretary of State Charles F. Carpenter you will vote to save lives... and the life you save may be your own.

Remember, keep highway safety FIRST... re-elect Charles F. Carpenter!

## GC Sailor With Operation 'Deepfreeze' In Antarctica

A Granite City chief naval air controller is literally immersed in a "deep freeze."

That is the destination given the navy's 1961 South polar operations in Antarctica.

With Operation Deepfreeze in Aarons C. Hart, 35, former Granite City high school pupil whose name serves dates back to 1945.

His wife, the former Miss Mary E. Perryman, lives at 2124 Washington avenue, and the chief air controller's mother, Mrs. Thomas C. Haley, at 2125 Washington avenue.

2200-Mile Flight

Flight from Christchurch, New Zealand, Hart reached the Antarctic two weeks ago. He is assigned to the Antarctica naval support forces command at the McMurdo Sound air facility.

That is the principal sea and air cargo staging point for this year's Operation Deepfreeze.

In a radiogram received last week by Mrs. Hart, she learned of her husband's safe arrival at his base from which will be launched what has been described as "the greatest peacetime military logistic program" in American history.

As air controller, his mother explained, Hart supervises radar-directed flight landings at McMurdo, and is likewise instructor in control techniques.

In the South polar region, it

AARON C. HART, whose wife and mother are Granite Cityans, is in the south polar regions with the Navy's "Operation Deepfreeze."

is the navy's task to support scientific observations, work and research carried on in what is said "the most mysterious continent on the face of the earth."

Mrs. Haley said today her son was a Navy careerman. He will head for Granite City on completion of his present assignment but that won't be until much later next year.

### TALKS OF SAFETY, MUSIC

The Madison Literary club met Friday evening in the home of Mrs. L. C. Marlan, 1734 Fourth street, with the vice-president, Miss Bens Carr presiding.

During the business session, plans were made to attend the Madison county federation meeting in East Alton Nov. 3. Jellies and jams donated by the club for the Lincoln Lodge will be presented there.

A part of the program for the evening included safety of the schools. Miss Nell Carr and Miss Grace Dricken reported on daily safety instructions given the children. Older groups study home safety and civil defense.

The program for the evening, "Music Today," was presented by Mrs. John McElwain. The club chorus, "The Federation Song," was led by Mrs. J. J. Purcell, accompanied by Mrs. McElwain.

Edward and Ashley showed views of places visited on his 1938 tour as a member of the Glee club of the University of Illinois, representing the United States at the Choral Festival of Music in the Belgium World Fair. The group was called the "Singing Illini."

Refreshments were served by the hostess at a table centered with a bouquet of roses from her garden. Mrs. Harlan was assisted by her daughter, Miss Marian Harlan, and daughter-in-law, Mrs. L. C. Harlan Jr.

Mrs. Trefre Cox was a guest for the evening. Fifteen members responded to roll call.

Miss Mildred Booth, Miss Margaret Booth, Mrs. Casey Lomax and George Hopkins, president of the Madison Federation of Teachers attended an all-day meeting legislative conference of the Illinois Federation of Teachers at the Leland Hotel, Springfield, Saturday. ## Supply of Diapers Taken At Laundromat

There was a mad rush to a department store Friday evening by a Granite City mother who was without diapers and training pants for two small youngsters after a theft of four sacks of clothing at a laundromat.

The mother had only three diapers at hand when upon discovering the theft, immediately went to a store for a new supply. The purchases amounted to \$18.

She also put a sign up in the laundromat, hoping that someone had taken the clothing by mistake. The woman had left the laundromat for a short time to visit a relative nearby and had left her clean clothing, including an assortment of linens, by the machines.

## Driver Hits Fence—Case Under Advisement

Cleopis Nabors, 20, of 1017 Calhoun street, Venice, was arrested at 2:30 p.m. Saturday after a car driven by him allegedly knocked down a cyclone fence at the home of Mrs. Helen Rogac, 1423 Iowa street, at 9:50 a.m. Saturday.

Initially charged by Granite City police with reckless driving and leaving an accident scene, he was charged at 10:30 a.m. Sunday by Mrs. Rogac with malicious destruction of property. An additional charge of no driver's license also was filed.

Police said the car emerged from the driveway of a car wash firm, headed south on Iowa street, drove through a field on the right side of the street, returned to the pavement and crossed the street, striking the fence.

Nabors pleaded innocent this morning before Police Magistrate Gasparovic to the reckless driving charge, and trial was set for Nov. 15. He pleaded guilty to the other three counts, and the penalties were taken under advisement until Nov. 15. His bond was set at a total of \$900.

## Troopers Halt 'Youths' Moonlight Motor Trip

Illinois state police intercepted an automobile police patrol without lights early Friday morning at the intersection of U. S. Bypass and Illinois Route 111 near Morris, Ill., and discovered a nine-year-old boy behind the wheel.

Sitting beside Marc Peterson of St. Louis was a brother John, age 8, with his right arm in a cast. The boys told troopers they had decided on an early morning trip to visit the Lincoln, Ill. area, and simply drove off in the family car, leaving their south St. Louis home shortly before 1 a.m.

Unable to locate the switch on the automobile's dashboard which turned on the headlights, the boys nevertheless drove through St. Louis and crossed the Chain of Rocks bridge, stopping to pay the toll, but still driving without lights.

They drove past several police cars in St. Louis and negotiated the river bridge safely, although receiving several warnings from lights of oncoming troops.

They were picked up by their parents at 4 a.m. and they made their lightless midnight ride because they were "tired of the same old routine" of schoolwork.

Mare did all the driving, troopers reported, and told them it was not his first attempt, although others had been made during the daylight hours.

### Requests By NAACP For Appointment of Negroes

Requests for utilization of more Negroes in police department and police board appointments and in other jobs as utility company meter readers were voiced at a meeting of the local NAACP branch Friday night with Venice Police Chief Robert Trover and Patrolman Everett Fisher.

Trover pointed out that the police board is the unit that fills police vacancies, and he expressed his regret that the board is not giving full consideration in hiring by the city. At present there are two vacancies on the police board, which has three Negro officers. The specific request was that a part-time officer be made full-time and that another part-time patrolman be employed.

He said the conference was sought by NAACP as part of an effort to broaden job opportunities.

## Kennedy's Brush With Death

The following is a dispatch received from the South Pacific. It was written in New Georgia, "deep in the South Pacific, off the coast of U. P.," was correspondent Frank Hewlett, who earlier in World War II had himself seen a PT boat.

Hewlett is now Washington correspondent for the Salt Lake City (Utah) Tribune; the Spokane (Wash.) Spokesman-Review and the Honolulu Star-Bulletin.

### By Frank Hewlett

SOMEWHERE IN NEW GEORGIA, Aug. 8 (UPI) —

THE LUCK OF THE Irish and some first-class skill brought Kennedy, 27, son of former Ambassador Joseph P. Kennedy, and 10 of his torpedo boat mates from a brush with the Japanese and death today.

A week after they had been lost and practically given up, another PT boat went through hostile waters to rescue the crew.

An SOS scrambled on a coconut and carried through enemy lines by a native.

Three men, including a second class (second class) Charles Harris, of Boston, who said he was invaluable throughout the ordeal.

Kennedy, who was badly burned, said Kennedy, a basketball player, recalled how the Harvard team before he graduated in 1940, towed him three miles.

Kennedy particularly lauded the work of Gunnersmate (second class) Charles Harris, of Boston, who said he was invaluable throughout the ordeal.

### Wallet Lost

Victor Szymanski, 2054 Fourteenth street, reported to Granite City police Thursday afternoon that he had lost his wallet containing his driver's license and social security card.

There Kennedy scratched an appeal for aid on a coconut husk. A native carried it through the enemy lines to this base.

They had drifted near a Japanese ship that had a big gun but a sudden shift in the current saved them. They finally reached a tiny, unoccupied island. But they were still surrounded by Japanese.

McMahon, who was badly burned, said Kennedy, a basketball player, recalled how the Harvard team before he graduated in 1940, towed him three miles.

Kennedy, who was badly burned, said Kennedy, a basketball player, recalled how the Harvard team before he graduated in 1940, towed him three miles.

Kennedy rowed out in a native canoe to meet us and guided our boat through a narrow reef to within a few hundred feet of the island.

Rubber boats made two trips ashore and brought back the 10 other survivors, including the trio who needed prompt hospitalization.

The injured are in the hospital and Kennedy is now resting his weary, lanky body in his long vacant bunk, which his mates never expected him to occupy again.

**FORCED TO MOVE WESTWARD** to old in fighting cystic fibrosis, two Quad-City families are pinning their hopes on research now underway. The two youngsters, who are cousins, are both stricken with the disease. Pictured (left to right) late Mrs. Robert George and her daughter, Linda, and Scott Bamber and his mother, Mrs. William Bamber.

### Young Cousins Fighting Same Illness—Fibrosis

Two young cousins, born in the Quad-Cities, currently are fighting the same disease, cystic fibrosis. And their families, now residing in Phoenix, Ariz., as an aid in combating the illness, also are helping by serving as leaders of the 1960 fibrosis fund drive in their adopted city.

The children are Linda Dale George, 13, daughter of Mr. and Mrs. Robert George, and Scott Bamber, four, son of Mr. and Mrs. William Bamber. Mrs. George, the former Mary Jane Bamber, is Bamber's sister. Mrs. Bamber, the former Wilma George, is George's sister.

Two other George children, Douglas and Bobby, are in good health. All of the youngsters are grandchildren of William E. George, a former Venice resident also residing in Phoenix, who wrote to the Press-Record of the unusual and unfortunate instance of two CP victims in the same family. About 3500 children are born with the disease each year.

"We know what happened to us will happen to one in every 800 marriages," Mrs. Robert George related after accepting the chairmanship of a door-to-door fund drive this fall. Bamber is general chairman of the campaign in Phoenix.

"We also know that there is no way of knowing whether or not parents, or their children, are carriers of the CP trait. We don't waste time asking why it had to happen to both of us; we are just working to find a cure for perhaps our own children and certainly for others. We know we are working against time."

Linda George was born with cystic fibrosis. When her mother's brother and father's sister decided to marry seven years later, it was known that there was a possibility that the trait would be inherited by their children; however, little was known about the illness at that time, and a search of the two families' records failed to record a previous case.

Scott Bamber seemed healthy during his first year of life, but was stricken at the age of one with pneumonia and the other fibrosis. When Linda was stricken with heat prostration, one of the weaknesses of CP children, the two families decided to move to Arizona. The Georges moved first, finding employment, and the Bambers followed.

The two showed improvement. Linda gaining eight pounds in five weeks and her cousin becoming less troubled by a persistent cough.

"What has been learned since Linda was born has helped us. She earns straight A's at school and is going into the eighth grade," Mrs. George said. "This is more than we could have expected had not new drugs, medicines and techniques been found each year."

The two families are pinning most of their hopes on research being conducted by the national

#### Fuller Cites Report On Need For Health Dept.

Support of county health departments by the White House Conference of Youth was brought out today by members of the citizens steering committee for establishment of a health department for Madison county. The proposal is on a special ballot for the Nov. 8 general election.

Harold K. Fuller, member of the state department of public health, said the Madison County White House Conference report of 1959 "has been fortified by the National White House Conference on Children and Youth in Washington, D.C., that full-time county health departments are the best means of implementing the recommendations urged by the conference."

"The recommendations stressed public education of a need for a county health department and establishment of a health department in the county."

Fuller added that Madison county public health records are inadequate in many instances and preliminary surveys show environmental sanitation both public and private is poor and public health nursing services are not available to all the public, including the aging population.

"To come up with all the answers as to Madison county's public health needs requires the combining services of well-qualified public health workers," Fuller said. "And it will take many years to completely survey the county and even then the survey should be made again and again."

#### Driver In Accident Faces Traffic Charge

Many a business success story started the day the owner modernized his lighting.

First, he found the new pleasing lighting attracted more customers.

And the bright, glare-free illumination gave his merchandise new glamour... impulse buying jumped.

His premises looked cleaner and stayed cleaner. His employees were more efficient, made fewer errors.

His cash register rang oftener and with bigger figures. Finally, he had to expand and—you guessed it—one of his first moves was to call in his lighting consultant.

# Water Co. Office Employees May Strike Tomorrow

Office employees of the East St. Louis & International Water Co. will strike the utility tomorrow, unless something can be done today.

Mrs. Loretta Stacker, East St. Louis, president of the Office Employees International Union Local 120, made this announcement today.

She added no labor-management negotiation meeting "had been set up for today."

In the event an 11-hour work development does not interfere, she explained, the office workers will strike.

"Unless something can be done today, we'll be out on strike tomorrow," she pointed out. "We've been out on strike for 10 days."

She said the strike would be a "sit-down" strike.

Would Picket 3 Offices

Mrs. Stacker said that picket lines would be set up at all company offices at Granite City, East St. Louis and Belleville.

The CIO union she heads includes about 600 employees of the three utility offices. Only three employees of the CIO union are affected by the strike. They are employed at the local office.

Employees at the local office are 1833 Delmar avenue.

The company has a total force of 20 at Granite City. Mrs. Stacker declined to comment on the likelihood of other APL-CIO water company workers refusing to cross the lines. However, she declared, if the six "the people" at Granite City might get "mighty thirsty."

A week ago today, the office employees approved the strike vote.

E. C. Smith, East St. Louis, general manager of the strike company, asserted today he had not been officially advised of the strike.

He said the strike, if called, affected only the office employees, adding:

"It has nothing to do with pumping and purification facilities workers." He refused to discuss the possibility of other than office personnel joining the strike.
